**Re: In the Matter of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

Having a competitive provider is key for customer to have the right and liberty to choose between one to another that doesn't have the same features set and price. I have been stuck with Comcast for the last 3 years and since we moved to our new house it has been such a relief to discover other providers that comes with features that fit my use of internet and network at home.

Having more provider means stronger competition and better brice for the customer. Having less competitors will automatically lead to higher price which for a customer point of view is totally unacceptable.

Broadband is absolutely critical for my home. I have the sonic fiber as today and this make such a huge difference compare to the competitive DSL we had previously.

Thanks for your attention,

Clement TISSANDIER
